Dear Sir:

I am concerned about the proposed changes in drug testing policy. I suffer from paruresis and having to be tested by urine tests is almost impossible for me. Alternative methods of drug testing work just fine. Why do people with shy bladder syndrome have to be treated like criminals?

Allowing people to prove their innocence with a method that they are capable of doing is only reasonable and fair. This is a country where

people are considered innocent until proven guilty. I hope it remains that way.

Thomas Smith
